

ONLINE SPANISH CLASSES

Factsheet 2024

Our Online Spanish Classes give students the chance to practice and learn from the comfort of their own homes. They are tailored to meet the needs and goals of each student. Students are able to customize both the intensity and the schedule of the course, as well as the learning outcomes of each lesson. Students with specific learning goals excel with private lessons as the content can be customized within our general curriculum.

FLEXIBILITY OF LESSONS

The flexibility of hours and schedules of individual lessons is a great benefit to the program and for those students who want to decide how intensive their program is. One-to-one lessons can be from just 1 hour per week and up to a super-intensive 30 hours per week. If a student can only study on specific days, they can also request to have lessons to accommodate their availability, making this option ideal for those who have other commitments during the day.

CUSTOMIZED LEARNING

The one-on-one attention from a professor allows the lessons to focus on the student's areas of interest. Classes can focus mainly on pronunciation and speaking fluidity or specific grammar rules that the student finds more difficult. Students can expect to improve their level of Spanish significantly in a short period of time by concentrating on the areas of the language that they find most difficult and receiving uninterrupted personalized attention from the professor.

GREAT FOR PRE OR POST IMMERSION PROGRAM

Online lessons with an Expanish professor is a great way to prepare for an upcoming trip to Spain. Students can get a jumpstart on their learning and feel better prepared for arrival with pre-departure lessons. Alternatively, online lessons after an immersion program is a great way to continue learning and stay connected to your favorite Spanish teacher.
